### TASTING NOTES

**To the eye:** One of the most striking features of the Rosé Champagne is its color, a delicate raspberry/cherry red color, inviting you to discover its sweetness. A fine effervescence forms a delicate rosary and can be visualized as a diamond necklace on a black velvet dress. Silver glints perfect its magnificent color. A creamy and sensual white mousse highlight its fresh hue.

**To the nose:** The nose is as remarkable as the color. A young, fresh and delicate nose reveals a range of red berry fragrances like raspberries, cherries, strawberries and red currants. Scents of wild berries merge with hints of citrus. A very successful combination! A timeless Champagne that may be shared and enjoyed throughout the four seasons.

**On the palate:** The first taste is faithful to the olfactory impression. The palate is soft, smooth and complex. It reveals and is characterized by red berries: cherries, raspberries and red currant flavors. The last flavors will be highlighted by citrus fruits, bringing vivacity and a touch of acidity, which magnify the red fruit and floral notes. The finish is soft and warm like a sunset on a summer evening.
